

BC-100T Wireless Conference Microphone Base

Key Features

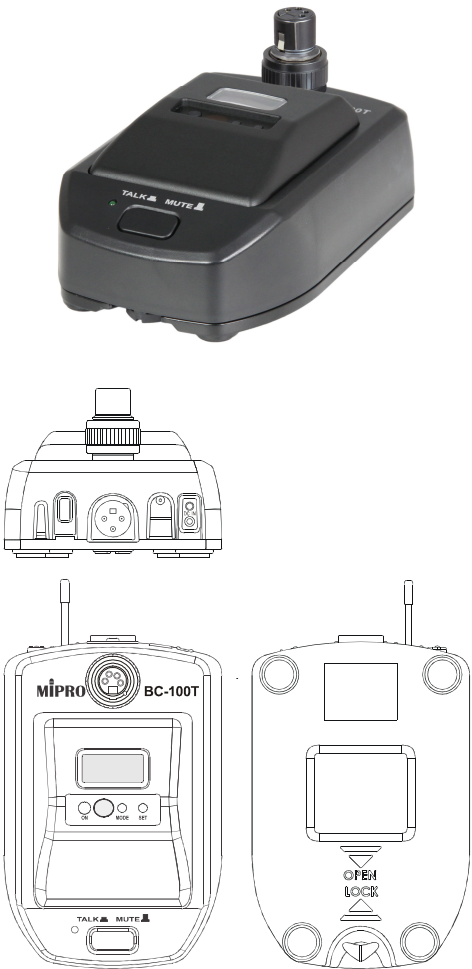

- The BC-T Series encloses the transmitter PCB for wireless transmission, and also retains the wired transmission circuit.
- Can be directly fitted with MIPRO MM-204 / 205 / 206 gooseneck microphones.
- For wired transmission, the output jack requires phantom power from the mixer.
- The operational controls are the same as the ACT-T Series bodypack transmitters.
- TALK / MUTE button provides easy speaking or mute option; a LED indicates status.
- Powered by an ICR 18500 rechargeable lithium battery, the BC-T Series has a built-in charging circuit for recharging the battery.
