

# AG-1500 Vaporizer

## AG-1500 Super Burst Power Antibacterial Vaporizer

The AG-1500 features a high output upshot blast to spread fog and fill a room very quickly.

Paired with FLD Antibacterial Solution, the fog can reach everywhere and form a protective layer on objects in the fogged space. The layer inhibits the growth of bacteria providing a more hygienic and safer living environment.

It's built-in six duration and high / normal output volume settings allow users to set output times based on the target area size. Also equipped with wireless remote to control the machine remotely.

AG-1500 is designed for large areas like banks, post offices, libraries, theaters, concert halls, etc.

Using AG-1500 Antibacterial Vaporizer regularly is a great addition to improve environmental hygiene and protect our loved ones from the invisible threat of bacteria.
