

Guess how many invisible bacteria and molds we breathe in and exposure to every day? Shall we feel there is no crisis around us by wearing masks and often washing our hands?

Or how to deal with the bad odor in the environment?

Air Guard AG-700 is an innovatively designed fog disinfector which able to convey the disinfectant parcels to every spot in a 3D way.

AG-700 vaporizes the safe and mild sanitation solution FLD-05 into 1-2 μm (micron) parcels, and evenly disperses them in the space. It can effectively reduce the quantity of fungi, germs and virus in various space, such as carriages, homes, offices, cinemas, department stores, station halls, airports, gyms and hospitals etc. It also forms a protective layer to inhibit its growth rate.

In this chaotic world, washing our hands and wearing masks seems insufficient. Regular space disinfection can provide you and your family a more contentedly and safer living environment.

Features

FLD-05 Sanitation Solution

500 ml per bottle

Function : Kill fungi, germs, virus / e.g. flu virus, dust mites, bad odors

Ingredients/Manufacture date :

See package.

Shelf life: 2 years.

Storage: Keep in cool and dry place, avoid direct sunlight. Keep out of children's reach. Use it within 6 months once opened, cap tightly after use.

Specification

Input Voltage	US Model : 100-120V, 50/60 Hz EU Model : 220-240V, 50/60 Hz
Rated Power	800 W
Warm-up Time	3 min
Fluid Consumption	16 ml / min
Output	2,500 cu.ft. / min
Fluid Tank Capacity	60 ml
Ambient temp. range	0°C - 40°C
Control	Manual, Wired Remote
Dimension	L 330 W 160 H 178 mm
Weight	3.7 KG
