

CCSD-TC2

Transport case for CCSD-CU and 6x CCSD-D

BOSCH

Invented for life

Introduction Announcement

► **Expected availability date**
15-09-2017

Product Description

The CCSD-TC2 Transport case can store up to one Control Unit and six Discussion Devices (any combination of CCSD-DS or CCSD-DL devices is possible). The shaped foam interior provides ample protection for the Discussion Devices. It also enables easy packing and unpacking. The Transport case has a stylish design but is also extremely durable and practical. It has a handle on the top and side, and two wheels on the underside for easy transport. There are two separate locks for optimum security; keys are included.

Features / benefits

- The CCS 1000 D transport case fits 1 x Control Unit and 6 x CCS 1000 D Discussion Devices with short and long stem microphones.
